An invitation from the NMSC-VOICE Steering Committee

We are pleased to invite you to the inaugural NMSC-VOICE Education Day – a new event designed to bring together multidisciplinary professionals involved in the care and management of non-melanoma skin cancer (NMSC).

The NMSC-VOICE Network has been established to address a clear and growing need: to strengthen collaboration across specialties, reduce variation in practice, and create a more unified voice for NMSC care across the UK. By connecting multidisciplinary team (MDT) members, the network aims to facilitate shared learning, highlight best practice, and support improved patient outcomes. This first meeting marks an important step in building that community.

The Education Day agenda has been designed by the Steering Committee to reflect the full complexity of NMSC care, from MDT functionality and clinical decision-making to the management of complex and rare cases. The interactive agenda focuses on case discussions, real-world decision-making and sharing of practical experience – providing practical takeaways that can be implemented immediately in practice.

This meeting is designed for all members of the MDT involved in NMSC care, including dermatologists, surgeons, clinical and medical oncologists and specialist nurses.

We look forward to seeing you in Birmingham.

Ricky Frazer
Consultant Medical Oncologist, Velindre Cancer Centre, Cardiff

Jonathan Pollock
Consultant Plastic & Reconstructive Surgeon, Nottingham University Hospitals

Heather Shaw
Consultant Medical Oncologist, University College London Hospital and Mount Vernon Cancer Centre

Grant Stewart
Consultant Clinical Oncologist, Royal Cornwall Hospitals

Agenda

Time	Session	Speaker
9.45	Arrival tea & coffee	
10.00 – 10.15	**Welcome**	Network Steering Committee
10.15 – 10.45	**Help! Our MDT is broken – Making MDTs Work in the Real World** A practical and light-hearted look at why MDTs fail and what "good" really looks like in practice. Leave with five simple, actionable changes to improve MDT discussions and consistency in your own setting.	Led by Ricky Frazer
10.45 – 11.55	**NMSC MDT Case Lab** Work in multidisciplinary teams to tackle real-world cases, exploring how different perspectives shape decision-making. Share insights, challenge assumptions, and explore how to reach better MDT decisions.	Interactive workshop session
11.55 – 12.15	**Energising our Network** An introduction to the NMSC-VOICE Network's vision, priorities and planned activities. Discover how you can contribute, collaborate and help shape the future of NMSC care.	Network Steering Committee
12.15 – 13.15	**Lunch & Networking**	
13.15 – 13.40	**The Evolution of Clinical Management Strategies** An overview of how the clinical management of NMSC is evolving and what this means for MDT decision-making in practice, including emerging approaches and remaining gaps.	Heather Shaw
13.40 – 14.05	**Surgical Decision-Making in NMSC** A practical look at the decisions that shape surgical management – from margins to 'acceptable' outcomes – and how early choices influence future options. This session will support better decision-making across the surgical pathway.	Jonathan Pollock
14.05 – 14.30	**Applying The RCR Guidelines in Practice** Translating the new guidelines into real-world care: how to apply them to complex patients and varied clinical scenarios. A practical, MDT-focused discussion on making guidance work across disciplines.	Grant Stewart & Olivia Chan
14.30 – 14.50	**Break**	
14.50 – 15.10	**Rare & Special Populations – What does the MDT need to know?** Key considerations for managing rare and complex NMSC cases, including Merkel cell carcinoma. Focused on what matters most for MDT decision-making in these challenging scenarios.	TBC
15.10 – 15.55	**Multi-Disciplinary Decision-Making for Complex Patients** An interactive panel exploring challenging cases, with live audience input at key decision points. See how different specialties approach complexity, and how real-world decisions are made.	MDT panel
15.55 – 16.10	**Summary & Close** Key reflections from the day and next steps for the NMSC-VOICE Network.	Network Steering Committee

GB.ONC.26.04.0003 April 2026. This meeting is intended for UK healthcare professionals.
